

Erratum: “A Probabilistic Approach to Evaluate the Risk of Decreased Total Triiodothyronine Hormone Levels following Chronic Exposure to PFOS and PFHxS via Contaminated Drinking Water”

Antero Vieira Silva, Joakim Ringblom, Christian Lindh, Kristin Scott, Kristina Jakobsson, and Mattias Öberg

Environ Health Perspect 128(7):076001, <https://doi.org/10.1289/EHP6654>

When originally published, this article was mistakenly classified as a review. It should have been classified as a research article.

In addition, the published article did not disclose a potential Competing Interest held by one of the authors. During the period of review of this paper, Dr. Mattias Öberg was called to serve as an expert witness in a trial related to PFAS in drinking water in Ronneby, Sweden (Case no. T1530-16).
